

JANDÍA GOLF FUERTEVENTURA, designed by the renowned American designer Ron Kirby, reopens its golf facilities in August 2014. Our facilities include 18 holes, a practice field, putting and chipping Green. At 1.5 km away from the golf field you can find the majestic beach of Jandia, as well as a wide range of leisure activities: restaurants, shops, sport activities, water sports, etc. and at 3 km away you will find the village of Morro Jable with a wide variety of services: Commercial centres, restaurants, tapas bars....
In addition, the golf field is located in the vicinity of protected natural areas and in the windward side of the island where there are many places and wild beaches where loggerhead sea turtles lay their eggs.

Jandia Golf has a par 72 with a total distance of 5,857 meters and has diversity in its design. The designer Ron Kirby alternates long holes with short ones which allow each player to use every club in their bag. The variety on the winds of the area, normally mild in the winter months, will make a different challenge each time you play, allowing you to play different fields every day. With 4 lakes on its route and multiple dry riverbeds, **Jandia Golf** is an interesting strategic challenge for the most skilled players and also very entertaining for those less experienced ones, who will have 4 sets of tees on each hole that will suit everyone's tastes and needs.

The practice facilities consist of a Driving Range with 20 covered stalls with wooden pergola and different "target greens", Putting Green and an ample area of Pitching Green for short game practice. All of them will enable you to practice your game at our excellent facilities. You will also have the option of receiving advice from our team of **Jandia Golf Academy** learn how to play golf or improve your game in a natural and relaxed way in our superb practice facilities. In our academy we teach golf lessons to players with any level: Novice. Beginners and Experienced players.

The Clubhouse is located in the heart of the golf field, where you can enjoy the 19th hole in a unique setting with stunning views. Offering services of proshop, changing rooms, buggy rentals, club rentals, snack bar, etc.
