

In the San Roque Hotel life slows to a different pace - where time can be forgotten and where guests relax and quickly feel at home.

Care has been taken to provide the right atmosphere for restfulness and tranquility.

Spaces have been created for relaxation – the pool is carved from volcanic lava and there is also a rooftop solarium. There are pleasant areas to converse, read, meditate or simply absorb both history and art.

The hotel has 8 double rooms, 8 duplexes with living rooms, 2 junior suites and 2 suites. La Torre (the tower) enjoys an amazing view of the town and the coastline.

Each room has a unique layout, colour and personality, but is identical in terms of comfort and service with hydro massage baths, audio visual equipment, designer furniture and contemporary art on their walls. That's twenty hotel rooms offering our guests a completely different experience of relaxation and comfort.

Another of the big attractions of the north coast is 'Buenavista Golf', Severiano Ballesteros' golf course in Tenerife. Only 10 minutes from the **San Roque Hotel**, this spectacular course lies at the foot of the Teno mountain range. It is a place with incomparable views of the mountains and coastline where you can enjoy 18 holes with a par of 72 and a length of 6,150 meters.

The San Roque Hotel offers a golf course reservation service and special prices for its clients.
