

The Golf Course El Plantio is the only one in the Comunidad Valenciana that has two different courses, one of 18 holes Par 72 and another of 9 holes Par 3.

The nonexistence of constructions gives an absolute integration with the environment which it constitute an ideal place for the practice of the golf, so much for beginners as for players with handicap. It has a path to those who want to put into practice all the blows. The school of Golf is open for those that want to begin in this sport or for the golfers already initiated. The field of practices has an extension of 300m of long for 100m of wide, besides the wide putting green with slopes and flat areas.

### GREEN FEE RATES 2005

|                                                                                                                            |    |
