The **La Finca golf** course is the third of three courses owned by the Group QUARA. It is a young field, which opened its doors in August 2002. However, since then it has been proving to be one of the golf courses most likely to the Costa Blanca. The La Finca golf course has an 18 hole + 1, all designed by renowned Spanish designer Pepe Gancedo. It is a course with generous fairways and spectacular greens because of its design and variety of contours. Within this course included: · Both the green of hole 7, totally square and surrounded by a spectacular bunker · As the holes 5 and 6, which are accompanied on his left side by an attractive lake with several waterfalls. This lake provides to said holes, not only the inherent difficulty of a water hazard, but also an added beauty to this already impressive field.
